

Gaura lindheimeri

PINK PANACHE® 'Bargau'

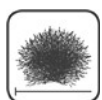

Its assets: a touch of light, a splash of colour and an exceptional shape !

A completely new leaf variegation. The young leaves are largely tinted with red. Then the leaf blade is grey-green, outlined in yellow, mixed with touches of pink. The stems are very straight. Their bright red-purple colour contrasts with the golden foliage. Pink flowers. The selection is also interesting for its upright, very well branched form. Its silhouette stays round. To be used in pots, in beds, in association with shrubs or other perennials, or in mass in open areas.
