

Weigela florida

MAGICAL[®] Rainbow 'Kolmagira'

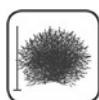

A rainbow in the garden.

Unusual "rainbow" foliage: green with a wide yellow rim and dark pink tints in summer. The leaves keep their variegation throughout the season contrasting with the red wood. They do not burn in the sun. Compact and well branched shrub of average vigour. Trumpet shaped pale pink flowers are abundant in May and June. There is no production of seed or fruit which sometimes spoils Weigelas.
