

# Hydrangea

## SO LONG® Rosy 'COUMONT'

*In the SO LONG® range: Rosy flowers abundantly on current year's growth*

The SO LONG® range stands out for an important and qualitative re-flowering. Flowering spreads from June to September, thus giving beds or containers a longer summer-flair.

SO LONG® Rosy offers half ball-shaped inflorescences, at first tender pink, then green. This very hardy selection flowers abundantly very young, on current year's growth.
