

Physocarpus opulifolius

Sweet Cherry Tea® 'ZLEBic5'

Compact, ideal for small spaces, beautiful purple foliage, re-blooms in August.

A pretty little shrub with a compact form, dense branching and upright habit. Its bright orange-red spring foliage turns purple. Its dark pink flower buds bloom light pink in May-June. It will rebloom in mid-summer. A very floriferous and melliferous plant, it is easy to care for and requires low maintenance.
