

# Potentilla fruticosa

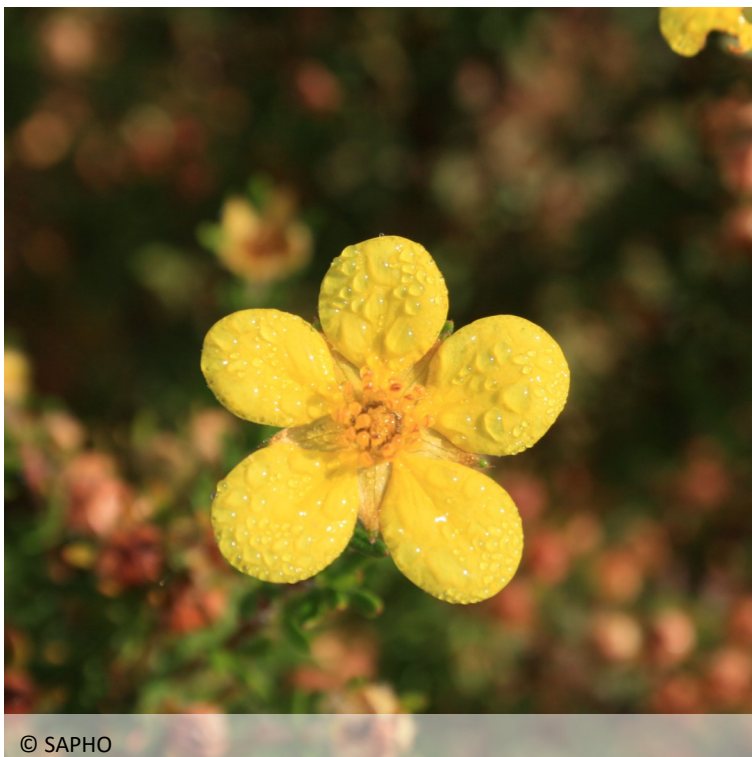

## Bella Lindsey 'Hendlin'

*Generous, bright and beautiful blooms all summer long*

It blooms with a multitude of small, bright yellow flowers with golden centers all summer long, from June to September. The petals are rounded, forming a wide-open corolla. Its dense, dark-green deciduous foliage contrasts with the golden radiance of the flowers. This variety is highly resistant to cold and disease. Ideal for bedding or small variegated hedges.
