

## Actinidia chinensis 'Minkigold'

### *Small fruits with yellow flesh and the scent of apples*

Right from its early age, this female variety carries apple scented fruit of 3 to 4 cm with yellow flesh. Harvest in Octobre - Novembre.

Best planted in a sunny spot, along a wall, under a pergola, or trained in rows, like vines.

Planted close to Actinidia chinensis 'Minkimâle', the necessary pollinator to obtain fruit (1 male stock to 7 female stocks).
