

## Campsis x tagliabuana ORANGEADE® 'TRACAMP'

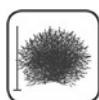

**Sparkling Trumpet Vine : lots of flowers, splashing luminous colors!**

In summer ORANGEADE® has beautiful clusters made up of 8 to 10 flowers; these are trumpet-shaped, 7 to 8 cm in length.

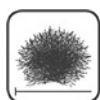

The "splash" effect is particularly attractive : on one single flower you have a splash of orange and bright red colours at the same time!

This is a climber which attaches itself to walls, thanks to its tentacles.
