

Caryopteris x clandonensis

GRAND BLEU[®] 'Inoveris'

**GRAND BLEU[®], the bluest of them all,
a STAR - Caryopteris for nearly 15 years!**

GRAND BLEU[®] is a dense, bushy rounded shrub of regular growth. It is suitable for container growing.

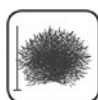

Its abundant late flowering spreads from August to October. The flowers have long stamens and are of a remarkable deep dark blue, which is highlighted by the bright, dark green foliage, giving off a turpentine smell when touched..

It is very suitable for planting in large quantities in public spaces, or as a sole shrub in small gardens.
