

Rubus idaeus GROOVY 'Jdeboer005'

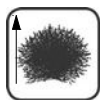

For small ornamental and gourmet gardens!

Rubus idaeus Groovy is a dwarf raspberry with shining and attractive leaves: orange-yellow in Spring, golden in Summer. Very compact, little thorny, it perfectly fits the trend towards ornamental and gourmet gardens, even in confined spaces, pots or in the soil. Groovy fruits from the first year – large raspberries, red and sweet. Easy to manage and productive, prune it lightly at the beginning of Spring.
