

Symphoricarpos doorenbosii

MAGICAL® Temptation 'KOLMATEMTA'

Compact and floriferous, the snowberry with shining deep pink berries.

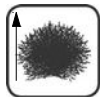

The snowberries of the MAGICAL® range are all extraordinarily fruit-bearing, of compact habit and moderate growth. After a discreet white flowering in early summer the shrubs are covered with abundant berries from August up to the first frosts, keeping its healthy foliage.

The berries of Temptation are of an unusual shiny colour: a beautiful strong pink, the darkest of the MAGICAL® range.
