

# Hydrangea paniculata

## FRAMBOISINE® 'RENSAM'

*A bush that's a little volcano of intense pink flowers!*

A beautiful, generously flowering and compact variety that forms bushes as wide as they are high. The branches support numerous white, cone-like flower-heads that rapidly turn pink and finally an intense raspberry-red. A precocious plant, it flowers from the beginning of July and its evolving colours will embellish a garden into autumn.

Ideally suited to cultivation in tubs or small spaces.
