

# Forsythia x intermedia

## WEEK-END<sup>®</sup> 'Courtalyn'

***A highly appreciated touch of light in beds and mixed hedges!***

A 'must' in cultivation... and for a long time appreciated by garden lovers !

WEEK END<sup>®</sup> is interesting as it keeps a dense and branched shape, thus reducing the need for pruning to a minimum. Its abundant, golden yellow flowers start blossoming at the beginning of March, depending on the region. WEEKEND<sup>®</sup> is very suitable for planting in beds and in a flowering hedge. It can also be planted in big tubs.
