

# Hydrangea macrophylla

## DOLCE<sup>®</sup> France 'DOLFRANC'

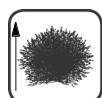

*A hortensia that privileges purple with its foliage hemming its flowers!*

A striking spring-time foliage of brilliant purple that gathers green tints as the summer advances. Its flowerheads form large blooms, both full and dense, that are creamy white and decorated with a border initially purple, later turning to pink.

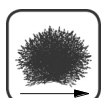

A rounded, well-branched habit, having stout stems. Sustained and generous display, capable of blooming on the year's stems and providing an attractive second flowering.
