

Clematis **SAPHYRA®** Nancy Earth day 'CLEMINOV15'

A perfect clematis for terraces, balconies and urban gardens

This clematis offers a beautiful display of fuchsia-pink, star-shaped flowers throughout summer (they can be used in bouquets). Measuring 1.5 to 2m at most, it can be grown as a climber or as a ground cover.

Resistant to pollution, cold, rain, drought and diseases, it is an easy-to-grow, maintenance-free plant that behaves like a perennial and regrows from base every year.
