

Hydrangea macrophylla **DOLCE[®] Fragola 'DOLFRAG'**

Big strawberry red flowers.

DOLCE[®] is an Hydrangea macrophylla range, suitable for the garden: density, abundance and quality of the flowering. In shrub beds, the DOLCE[®] varieties blend in harmoniously. They can also be grown in pots to embellish terraces and balconies.

Although these shrubs prefer humus rich soil, they adapt to every type of substrate, as long as it is fresh.

A safe bet! Fraloga, big delicious strawberry-red flowers in June - July, compact and well branched growth, beautiful foliage with pretty autumnal colours.
