

## Pittosporum tenuifolium Bannow Bay 'BREEBAY'

### *Fantastic foliage in perpetual evolution*

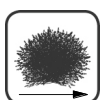

This pittosporum has astonishingly dense foliage, with evolving colors: olive green edged with white in spring, then splashed with pink and finishing in a lovely shade of purple when the cold arrives. It grows naturally in a round clump and requires no pruning. It's perfect for pots, terraces or the ground.

### Characteristics

1.00 m

0.60 /  
0.80 m
