

# Hydrangea paniculata

## DIAMANT ROUGE® 'Rendia'

### *The reddest of our diamonds.*

DIAMANT ROUGE® is spectacular for its abundant and long lasting flowers, the reddest of Hydrangea paniculata! From early July, its strong stems bear large flowerheads. The lush panicle blooms first white, then the "diamond" turns pink, getting rapidly deeper in colour in August. Then it bursts into raspberry red, later turning wine red for a few weeks. Colours can vary with exposure, climate and soil type.

Bushy shape. Foliage turns orange in autumn. It goes well in a shrub border together with perennials or in a pot.
