

Lagestroemia indica **FUCHSIA D'ÉTÉ® 'Indyfus'**

Fuchsia pink in the INDIYA CHARMS® range.

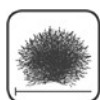

The varieties of the INDIYA CHARMS® range have been selected for precocity and quality of flowering, they are more suited for mild summers. They are resistant to low temperatures and to powdery mildew. As clumps or stem-grafted they offer bright colours.

FUCHSIA D'ÉTÉ®: The young red shoots make room for big shiny leaves, purple green to bronze, depending on the conditions. The early flowers bloom as very thick fuchsia coloured, nearly red thyrses.
