

Hydrangea macrophylla SO LONG® SUNNY 'TK02'

In the So Long® range, Sunny: a variety of two-coloured bloom.

The So Long® range stands out for its important and high-quality reflowering. Flowering from June to September, it makes an interesting summer-plant for beds or boxes. So Long® Sunny shows well-rounded inflorescences of white curled petals with a pink border that's vivid at first, later rose-white. The colours turn to sky-blue tones in acid soil. Stems are strong, the shape is compact and round.
