

Trachelospermum jasminoides

WINTER RUBY® 'TRARED'

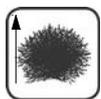

Perfumed flowers in summer and a superb coral-red foliage in winter

In winter its elegant, shining and really persistent foliage acquires a pronounced, beautiful and decorative coral-red. Its white scented flowers bloom between May and July in full sun, from June to September in half-shade. Winter Ruby® is as floriferous as typical jasmines but not as tall (2-3 m), therefore this climbing plant adapts to small gardens or cultivation in pots with supports.
