

Hibiscus syriacus

STARBURST CHIFFON 'RWOODS6'

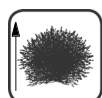

The charm of the Chiffon range with pinky white blooms and deep red stripes

The flowers of the CHIFFON range are partially petal-shaped and have a "mousseline de soie" appearance and a crinkled heart. The wilted flowers don't stay on the plant. These cultivations with abundant summer flowers are particularly ornamental and light.

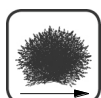

Starburst Chiffon with its soft white-red flowers on which are traced beautiful deep red veins combines harmoniously with the other varieties of the Chiffon range.
