

Gardenia CELESTIAL STAR® 'PS-2013-4'

Simple and perfumed, the elegance of a gardenia in the garden

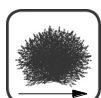

A shrub with persistent foliage producing elegant white flowers, simple and star-shaped that release a heady perfume. Flowering at the end of Spring – beginning of Summer, remontant all Summer long once the plant is well settled in. Its excellent growth, ready branching and relative resistance to frost allow the use as a garden Gardenia or terrace plant.
