

Gardenia jasminoides

'Crown Jewel'

***A hardy gardenia
with very fragrant double flowers.***

'Crown Jewel' has a frost tolerance of -10°C , or even lower, it can therefore be used outside most of the time, in beds or pots, near the house.

Abundant flowering in June-July. This shrub produces attractive double blooms giving off a powerful perfume. Some flowers still bloom at the end of summer.

The attractive glossy dark green leaves are smaller than in other varieties. The shrub stays evergreen in winter.

Dwarf, spreading growth, compact and well-branched.
