

# Cornus hongkongensis x kousa

## 'Parc de Haute Bretagne'

*The elegance of dogwood, with its pink tinged flowers*

In early summer, this tall shrub is covered with large, abundant flowers that will enhance your garden. Their color ranges from ivory to pink to light red. They then give way to green fruits that turn red. Its foliage takes on beautiful coppery hues in spring and autumn. It's a vigorous, low-maintenance plant with flexible side branches and an upright habit.
